EXPORTING FROM
Vatech (EzDent-i)
UPLOAD GUIDE
1. Right click on an empty space on your desktop to create a new folder (New ➔ Folder). Type in the patient name and click “Enter”.

2. On VaTech, select your patient and right-click on the CBCT scan, then click “Export”.

Note: If using the Instrumentarium Dental OP300 or Gendex GXDP-700™, instructions will not apply. Please contact your local representative for assistance on extracting the raw data from your CT scanner.
Note: If using the Instrumentarium Dental OP300 or Gendex GXDP-700™, instructions will not apply. Please contact your local representative for assistance on extracting the raw data from your CT scanner.

Step 3: A pop-up window will appear with several hundred .dcm files. Click on “Local Disk”, then “Export”.

Step 4: A second window will appear with the save location. Select your newly created folder on your desktop and click “Select Folder”. The DICOM files will be exported, and once completed, click “OK”.

Note: If using the Instrumentarium Dental OP300 or Gendex GXDP-700™, instructions will not apply. Please contact your local representative for assistance on extracting the raw data from your CT scanner.

3

Step 5: Go to the patient's folder and confirm the .dcm files were exported correctly (there should be several hundred files).
Note: If using the Instrumentarium Dental OP300 or Gendex GXDP-700™, instructions will not apply. Please contact your local representative for assistance on extracting the raw data from your CT scanner.

Step 6: Return to your desktop and right-click on the patient’s folder to send to a compressed folder (Send to ➔ Compressed (zipped) folder). A duplicate folder will be created with either a zipper or a blue “Z”. Note: If following a Dual Scan Protocol, zip scans individually and label accordingly (i.e., “Patient Scan” and “Denture Scan”).

Step 7: Upload your case on glidewelldental.com, then click and log in to “My Account”. Note: Use Google Chrome when uploading your case; additionally, if you do not have an account, please contact us and we will set it up for you. Your scan can also be sent on a disc or USB drive via standard shipping methods if digital upload is not possible.
Note: If using the Instrumentarium Dental OP300 or Gendex GXDP-700™, instructions will not apply. Please contact your local representative for assistance on extracting the raw data from your CT scanner.

Step 8: Select “Cases” → “Guided Surgery/DTP”.

Step 9: Select “Request New Plan”.

Step 10: Select desired package.
