EXPORTING FROM
SIDEXIS 4
UPLOAD GUIDE
Step 1: Right-click on an empty space on your desktop to create a new folder (New ➔ Folder). Type in the patient name and click “Enter”.

Step 2: Go to the patient scan and click on “Output” ➔ “DICOM Exam Export”.
Note: If using the Instrumentarium Dental OP300 or Gendex GXDP-700™, instructions will not apply. Please contact your local representative for assistance on extracting the raw data from your CT scanner.

Step 3: After the patient scan report appears, click on “Settings” tab.

Step 4: Ensure “Include raw data” is selected (other options should not have to be changed) and click “OK”.
Note: If using the Instrumentarium Dental OP300 or Gendex GXDP-700™, instructions will not apply. Please contact your local representative for assistance on extracting the raw data from your CT scanner.

Step 5: Select your newly created folder from your desktop, then click “Open” and “Save”. Exporting will begin.
Note: If using the Instrumentarium Dental OP300 or Gendex GXDP-700™, instructions will not apply. Please contact your local representative for assistance on extracting the raw data from your CT scanner.

Step 6: After exporting, go the folder and search for the “CT3” subfolder, then confirm the .dcm files were exported correctly (there should be several hundred files).
Note: If using the Instrumentarium Dental OP300 or Gendex GXDP-700™, instructions will not apply. Please contact your local representative for assistance on extracting the raw data from your CT scanner.

Step 7: Return to your desktop and right-click on the patient’s folder to send to a compressed folder (Send to ➔ Compressed (zipped) folder). A duplicate folder will be created with either a zipper or a blue “Z”.

Note: If following a Dual Scan Protocol, zip scans individually and label accordingly (i.e., “Patient Scan” and “Denture Scan”).

Step 8: Upload your case at glidewelldental.com, then click and log in to “My Account”.

Note: Use Google Chrome when uploading your case; additionally, if you do not have an account, please contact us and we will set it up for you. Your scan can also be sent on a disc or USB drive via standard shipping methods if digital upload is not possible.
Note: If using the Instrumentarium Dental OP300 or Gendex GXDP-700™, instructions will not apply. Please contact your local representative for assistance on extracting the raw data from your CT scanner.

Step 9: Select “Cases” → “Guided Surgery/DTP”.

Step 10: Select “Request New Plan”.

Step 11: Select desired package.
